$90 million
Tax payments made to the region in 2025

$459 million
Royalties paid to SW App owners in 2025

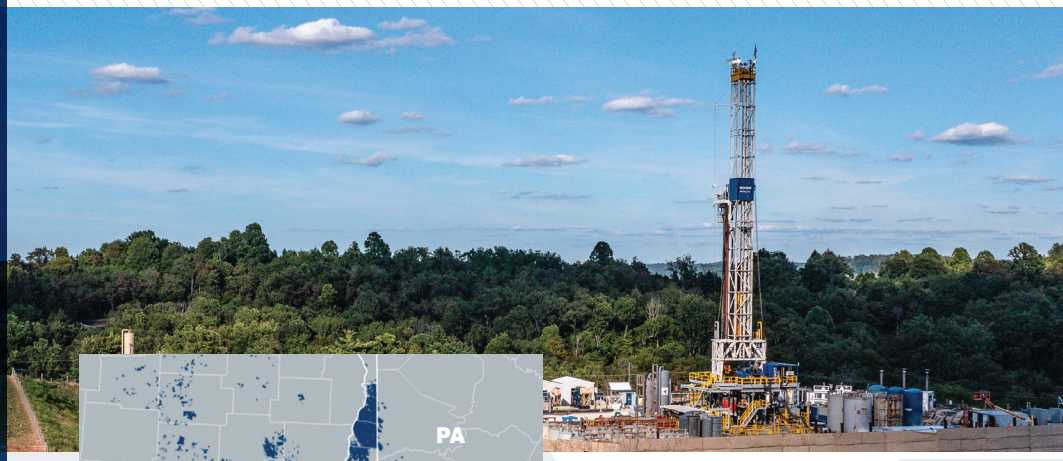

325+
Local employees

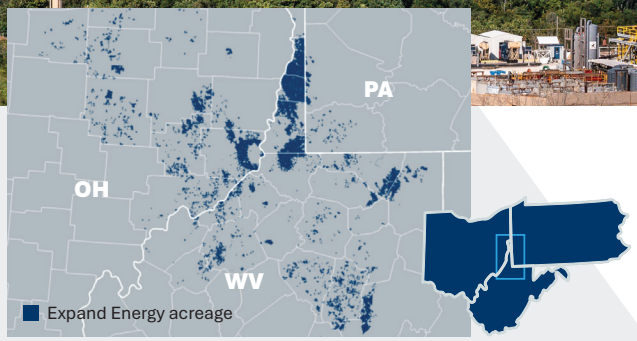

We're Expand Energy. Your Neighbor. Your Partner.

Expand Energy, formed in 2024 through the combination of Chesapeake Energy and Southwestern Energy, is North America's leading integrated natural gas company.

Here at home, our operations pay local employees and landowners, generate tax revenue for local governments, and support community causes.

We also take responsibility for how that work gets done: safely for everyone on and near our sites, and with care for the environment around them.

Expand entered SW App in 2010,

establishing itself as an early Utica Shale operator and among the first to drill horizontal Marcellus and Utica wells in the region.
